

Jorge Montecinos

Career Summary

He is a professional dedicated to the develop and implementing solutions focused on data value. He's specialized in data science to get knowledge from data, applying descriptive and prescriptive analytics algorithms, also hi has skills in data engineering to build solutions bases for data science. With both skill sets he can cover cross-cutting ways for data analytic.

He has 25 years working with data and 5 years as Data Scientist, in many types of companies to provide technical solutions focused on data driven business goals.

Summary of Qualifications

Proficient In:

- Machine Learning
- Neural Networks
- Data Analytics
- Big Data
- Cloud comp.
- Python
- Spark
- Databricks

Languages

- Spanish (native speaker)
- English (Intermediate)

Career History

Perficient, Santiago, Chile

Apr. 2022 – to date

Data Scientist and Business Intelligent

- Data Analytics, reports and cubes from Loyalty and Awards system for MasterCard USA.

Axity, Santiago, Chile

Nov. 2021 – Mar. 2022

Data Scientist

- Design and implement Chilean Treasure Government forecast and budget data analytics with machine learning models, design of Data Lake, Synapse in Azure cloud platform.

Factor IT Engineer, Chile

Jun. 2021 – Nov. 2021

Data Scientist

- Design and implement machine learning models for prescriptive and descriptive analytics for Shopstar (Peru) with e-commerce customer analytics and Brilla (Colombia) with loan risk classification. Develop custom models for Clustering, XGBoost classification (gradient boosting), Auto ML, Spark ML, in Google cloud plt. and IBM Watson Studio in cloud plt.

Synergistics Digital Solutions, Chile

Oct. 2020 – Jun. 2021

Data Scientist

- Design and implement machine learning models and data platform to industrial control in copper mining for Anglo American Minerals. Develop classification model, clustering, data lake and Synapse analytics in Azure cloud plt.

Education

Universidad de Santiago de Chile, Santiago, Chile

Mar. 1991 – Dec. 1992

Bachelor of Computer Science

Professional Institute CEC, Santiago, Chile

Mar. 1993 – Dec. 1995

Higher technician in analysis and programming

Massachusetts Institute of Technology (MIT xPro remote), MA, USA)

Nov. 2020 – Jan. 2021

Data Science and Big Data

Massachusetts Institute of Technology (MIT Pro educ), MA, USA)

Sep. 2019 – Nov. 2019

Machine Learning
